Hi Debbie,

It's a Canon Image Runner 3025 Serial # MTV00478 with no scanning features. It is not a shared copier. It's located in room N251A. This might not help they changed room numbers on us, but it use to be in room N224.

Jim

Hi Jim,

Is the copier you use an Aficio 1022 located in room N222? If so is this copier shared with the Immunization Program that is out there? Also does this machine have scanning capabilities?

Debbie
